Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgment is made of the amendment filed on April 24, 2008. Claim 1-11 are currently pending.

Claim Objections

1. Claim 1 is objected to because of the following informalities:
in claim 1, line 1, insert --article-- between "each" and "equipped"; and
in claim 1, line 8, substitute "they" with --the articles--.
Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Skinner (US 5,441,158).

Skinner teaches

a mobile device (reader 178) for collecting and validating collected articles (garments 20), each article equipped with a transponder and comprising means for moving along a runway

in a predetermined path and means for receiving articles collected during this displacement one by one (col. 7, lines 33-43 and figure 1),

wherein the mobile device further comprises radio-frequency interrogation means for obtaining identifying information on each of the articles collected by the device and comparison means for comparing the identifying information obtained with references relative to a determined order for articles and thus for validating the collected articles as the articles are collected along the runway (col. 6, lines 46-55);

the device wherein said RF interrogation means comprise an RF antenna coupled to an electronic module for processing the identifying information issuing from transponders;

the device wherein said RF antenna and said means for receiving the collected articles form a single integrated module; and

the device wherein said electronic module comprises a memory means for storing said references relative to a determined order for the articles and said comparison means for comparing said references relative to the determined order with the identifying information issuing from the transponders.

Response to Arguments

4. Applicant's arguments with respect to claims 1-11 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JAMARA A. FRANKLIN whose telephone number is (571)272-2389. The examiner can normally be reached on Monday through Friday 8:00am to 4:30pm.
